Jennifer,

The issue about the 12 months is of real concern and something we need further discussion on.

I have sent the duplicate notice and attachment for Reg. No. 12455-79 back to you.

I have been reviewing the labels/comments etc. There are a couple more items which require clarification.

For Reg. No. 12455-75 under No. 6, you indicated that the first sentence needs to read "Apply 3 to 16 ounces of bait.....". Note that this registration is for place pacs and not loose bait. Therefore it is correct to state "Apply 2 to 10 place pacs.....".

For Reg. No. 12455-86 under item 8, you indicated that the last sentence in the mice subsection is to read "Maintain an uninterrupted supply of fresh bait for 10 days. Under the marketing statements it states 15 days. This should read 10 days because of the change. Also, in the marketing statements, I see rodents crossed out in 2 places. What is this to be replaced with? I presume "rats and house mice" Is this correct?

For both Reg. No. 12455-86 and Reg. No. 12455-76, item 2 states that the following statement must be included "In order to ensure a consistent and satisfactory control of listed rodents, do not sell this product 6 months after manufacturing." Please explain why this is needed. We recently received registration for Reg. No. 12455-114 which is identical to Reg. No. 12455-76 but did not require such a statement.

I will call you on Thursday March 26 to discuss the above.

Best regards,

John Lublinkhof
